OUR ORGANISATION

We accomplish our Quality objectives by establishing, implementing and maintaining a Quality Management System, which complies with the applicable local legal requirements and conforming to ISO 9001:2015 standard.

We regard quality as a mainstream management responsibility.

Executives and line managers are committed and create a quality and continuous improvement culture. They are directly responsible and accountable for quality activities and results. Each and every employee is engaged, understand his/her responsibilities and is empowered for quality matters under his/her control.
